## FROM CHARLESTON.

The Democracy Comatose—W. L. Burdette as a Senatorial Candidate
—Opposition of the People to the Corrupt Ring. CHARLESTON, June 9.

CHARLASTON, June 9.

Editors of the Intelligencer:

"Kanawha Democracy is calmly aleeping," because there is nothing to wake it up this warm weather but so much the worse for the Democracy. W. L. Burdette is working for the nomination for the Senste from this district, and thus destroying his chances for Clerk of the House, which he might possibly get, and thinkeds a bit of the contraction. stroying his chances for Clerk of the House, which he might possibly get, and insuring his detent for the higher place.

The Ring has been allowly but surely dying, and it will not be able to do any harm by the time the next Legislature assembles. Its iniquities are too plainly seen by the people now, and it will get no more support from them. Not only this, but no man who depends upon "regular nomination" for effice can get it; that is now settled and certain. Thanks to the rottenness of the Ring and its work. No one of its members, nor any one who will one of its members, nor any one who will not speak against them, can make any not speak against them, can make any ahow for election, whether he be a candidate for the House or for a higher place. True there is no organization of the opposition, but it is actuated by a common sympathy and bound together for self protection, and will maintain its position, and will not be found wanting when the day of trial comes. I write this as a sort of set off of "Addison," at the same time claiming that I am the nearest correct in claiming that I am the nearest correct in my views.

Wool Notes.

The Boston market is reviewed by the Boston Commercial Bulletin of the 15th,

5,000 medium fleece at 53a55; 5,000 re-jected at 37ja47\$; 3,000 black at 50c. Dealers in California wools have been very basy during the past week, and the sales toot up nearly 1,000,000 lbs. Prices are steady, sales being made at 30a88c for are steady, sales being made at counce for spring, with a few trensactions as high as 40c for choice lots. The receipts of California are large, and buyers are able to find almost any grade they wish. At San Francisco the prices are very firm, 90s31c being paid for choice wools.

There has been a steady demand for nulled wools, good supers and extras benulled wools.

so that there is no great necessity for get-ting the new clip into the mills.

The Philadelphia Commercial List says:
Supplies of new clip are coming in a little more freeley, and there is rather more demand from the manufacturers, without change from last week's figures. But it is impossible to conceal the fact that the tendency of the market for some grades of the wool product is downward, and that prices must decline as the new d that prices must decline as the ne cip comes into market. The condition of the trade in woolen goods is in an unsatisfactory condition all over the country, prices being relatively below the mark which manufacturers have been compelled to pay for the raw material.

That concessions will be made before the close of the month, as supplies come forward, may be confidently predicted. among the sales were: 7,000 lbs Ohio fine, 58c; 20,000 lbs do do, 57c; 6,000 lbs Ohio XX, 57c; 50,000 lbs Ohio XX and XX, 50c; 2,500 lbs Ohio medium and fine 54c; 25,000 lbs New York fine, 58c; 2,000 lbs western common. 50c: 10,000 lbs Collawstern common. lbs western common, 50c; 10,000 lbs Colorado white 25a30c; 85,000 lbs do do on private terms; 2,000 lbs tub Indiana, 564c; 5,000 lbs pulled super, 45c; 55,000 lbs pulled No. 1, 46a47c; 5,000 lbs pulled No. 1, 46a47c; 5,000 lbs pulled Philadelphia, 46s; 30c; 12,000 lbs pulled merino, 48a484c; 5,000 lbs do do, 474c; 2,000 lbs pulled black, 34c; 7,000 lbs combing Ohio, choice medium, 60c; 5,000 lbs noils English on private terms; 900 lbs noils domestic, 60c; 2,000 lbs unwashed Jersey. 4 blood, 374c; 2,000 lbs unwashed Jersey. c; 10,000 lbs Col-Soc; 15,000 Has Go Go Go, 30,3380c; 35,000 Has do do do on private terms; 50,000 Has unwashed Western † blood, 38c; 25,000 Has do do do, 37c; 15,000 Has do do † blood, 35c; 75,000 Has do do, 18c; 15,000 Has unwashed combing, 40,42c; 10,000 Has do do, 42c; 42,44c; 10,000 Has do do, 42c; 3,000 Has unwashed combing, 40,42c; 10,000 Has do do, 42c; 3,000 Has unwashed combing, 40,42c; 40,000 Has do do, 42c; 3,000 Has unwashed combing, 40,42c; 40,000 Has do do, 42c; 3,000 Has unwashed combined to the second unwashed and part washed, 86c. Receipts for week, 8,178 bales.

The above notes will afford to our farmers in this district a basis upon which they will be able to make a reasonable ulation of the prospects of the market in this section.

The Claims of General Northcott.

Editors of the Intelligencer: As the time is approaching for the peo-ple to begin to cast about for some per-son to serve them in the Forty-Fourth Congress, I take the liberty as a voter of bringing to public notice the claims of one who has been shamefully overlooked in who has been shamefully overlooked in general scramble for office. I allude to General R. B. Northoot, of Clarksburg. He is one that has given evidence that he can make sacrifices for his country when sacrifices are demanded, as he showed in the beginning of the rebellion, leaving home and associates of a lifetime, and becoming, a refugee for the cause of the Union. But he was not a passive refugee. He cast his lot among the loyal people of the country, and he evinced a willingness to do his share of the work, and he did it with honor to himself and his State.

His career as a Union solder is well

with honor to himself and his State.

His career as a Union soldier is well known in West Virginis, and needs no eulogy from my pen. Since the war, in the general scramble for eilice, he has been overlooked, and I think the time is upon us for his claims to be recognized.

Gen. Northcott is a true Republican, but he is one of those who does not permit his political preferences to lead him

to any acts of injustice to his opponents. Were he a member of Congress he would do all in his power for the interest of his constituents regardless of party. He has done much in his capacity as an editor to build up the educational interests of our people. He has also stimulated the agri-cultural portion to renewed industry and

Gen. Northcott will fill the bill as well see him in Congress. I cannot say that I desire to see him a party candidate, I want to him to be the people's candidate. I want to him to be the people's candidate. The political wire-workers have persistently overlooked his claims, and I think it is but right that the masses of the people should come forward now and do him what I consider an act of Justice. He will suit the farmers and working men generally, and the old Union soldiers will rally to him to a man. He is a practical three to the state of the s farmer and working man himself, and appreciates their wants.

Let him be the people's candidate.

Wheeling, June 16, 1874.

What We Eat.

The fact that an organization is about to be started to compel the ante mortem preparation of meats and poultry used upon our tables, is one evidence that the people are being awakened to the necessity of guarding against certain marketable evils, by which hundreds of healthy and robust men, women and children are thrown into prolonged and incurable dis-

orders. It appears from statistics that a large proportion of the diseases to which the fiesh is heir are lingering and chronic. It is stated by French medical men that this percentage may be materially reduced by a careful and proper attention to what we eat and how we eat. In the first place we must not gobble our food, nor eat when too hot. Warm food is necessary. Hot food is deadly. Cleanliness is a requisite as much as food itself, and to it the most deliberate consideration is to be given.

A pig brought up in filth, and allowed to take "such as he likes," wherever he may find it, will always make bad pork, orders. It appears from statistics that a

Boston Commercial Bulletin of the 15th, as follows:

The market for fine and medium fleeces is without features of general interest, the stock being so small as to leave very little opportunity for any one to do much. There is no material change in prices since our-last report. Choice X and XX Ohio and Pennsylvania fleeces sell at 544 576 for old, with some choice lots of XXX at a higher figure. A few small lots of new Ohio fleeces have come forward, and we note sales since our last from 50 to 55 cents, the lower figures for heavy and the highest price for a choice and very destrable lot. A fair quotation for new Ohio wool to-day is 52a53c.

The sales of fleece wools since our last flouide 6,000 new Ohio X at 55c; 1,500 do do at 53c; 2,000 heavy do do at 50c; 5,000 medium fleece at 52a55c; 5,000 rejected at 37a47a; 3,000 black at 50c.

Dealers in California wools have been very busy during the past week, and the
